**Process Coner AIcone**  
**MURATA Automatic Cone Winding Machine**

**- Link Coner**

Individual air splicer (Mach Splicer), single side and single deck type,  
to wind from ring spinning bobbins onto 6" traverse paper /plastic cone,  
Winding speed changeable by individual direct drive drum system with electronic anti-patterning,  
Each winding unit equipped with Steel Drum (high efficiency motor mounted),  
New Cradle, Cradle lifting & package brake system, Winding tension control system,  
Photo feeler, Kink Preventing system, Ceramic Cutter, Blower with Static pressure control,

- Individual drive system for each movable component
- Winding Tension Control by PC-module (PC-Sensor/PC-Tensor/PC-BalCon)
- VOS 4 (Visual On-demand System ) with 15.6" display monitor/touch screen
- Integrated Communication System
- Direct drive with inverter for suction control with suction shutter system
- Automatic bobbin centering system
- Automatic Doffer(AD) & Package Conveyor
- CBF (Continuous bobbin feeding system)
- Non-stop yarn waste removal function
- Conveyor Rotation Sensor
- Smart guide panel on each winding unit, Auto Doffer, Continuous Bobbin Feeder
- Unit Module design (top/middle/bottom)
- Yarn end finding device (Hyper Cop Robo (1 device / machine))
- Double-sided CBF panel (only available for Hyper Cop Robo 2 devices/machine)
- Linking system (Tray-To-Tray type)
- S-Feed II
- Plus Run system
- Auto Balance
- Quick bobbin change
- Optimized electric current control system (OES)
- LED Indication for CBF
- CBF with AAF (Automatic Adjustment Function)
- i-Release
- E-Drive
- Perfect Ready

| Item                                         | Q'ty     | Unit Price | Total Price      |
|----------------------------------------------|----------|------------|------------------|
| 30 drums / 32 frame                          | 1 set(s) | \$130,000  | \$130,000        |
| Standard Spare Parts                         | 1 lot    | included   |                  |
