TECHNICAL DETAILS AND REMARKS:

For technical information please refer to the actual binding data according to the document "Technical Data" which is available for each product on our website <https://www.uster.com/> or can be supplied from Uster on request.

IMPORTANT - Uninterrupted Power Supply UPS:

We would like to indicate that a power failure can result in damage of computer parts up to the total collapse of the installation. If you use this quality testing instrument without a UPS, the right to claim under guarantee will be reduced or can be expired.
